Stay approved for total 8 weeks duration. Please do not extend beyond this.

Warm Regards,  
Sharmistha.

Subject: Extending stay from 45 days to 8 weeks on US business visa

Hi Eshan,

For one of our new customers Heidricks & Struggles in US, we are doing our first project and a key engagement to implement salesforce.com, we started phase I of this project, which is blue printing the roll out plans. For the project our SFDC test manager, Vishal Gaur, had travelled to customer site (FP project) for test planning along with H&S team on business visa. Due to changes in the scope he's required to stay beyond what we had anticipated and his total duration will get extended by another 10 days. He would be completing 45 days by 18 Oct but with the change in scope we would require him to be with the customer till 27 Oct.

Request your approval for extending stay SFDC Test manager on business Visa upto 8 weeks.

Thanks.

Best Regards,

Sachin
